

Elephant electric trolleys

Features:

- Heavy duty construction
- Adjustable to any standard I-Beam
- Idle free wheels to cope with undulating beams
- Wheels fit any beam shape
- Smooth wheel travel due to the use of ball bearings
- Direct connectors for shorter headroom
- All models have a simple plug in, plug out electrical system
- Electric Trolleys are operated by low voltage (24V) control
- IP 55 specification for weather / water proofing

Product Code	Model	WLL (tonne)	Range	Speed	Mass	kW Rating	A	B	C	D	E
