

Heavy Duty Towing Straps

B THIMBLES FOR BULLDOZER RIPPERS

The bearing (contact) zone of the B thimble is typically marked in yellow paint and is the thickest part of the cast thimble. The B thimbles are fully welded around each leg. If damaged in use, the B thimble assembly can be repaired/replaced in our premises and the integrity of the KEVLAR® load bearing fibres can be checked for damage. The Black Snake KEVLAR® Recovery strop with one or more B thimbles is a specialized, heavy duty product. The user should assess the suitability of this product and recovery procedures when choosing to recover equipment with dozer rippers.

Break Strength	100 tonne	150 tonne	200 tonne	300 tonne
A	300mm	370mm	370mm	370mm
B	105mm	105mm	110mm	115mm
C	195mm	195mm	195mm	195mm
